

"Before You Decide Which Treatment To Use.... Consider These Important Factors"

	Tent Fumigation	XT2000 Orange Oil	Cost
1. All people must leave and all living things, including pets, fish aquariums and all plants must be removed from the structure during entire time of fumigation.	ALWAYS	NO	
2. The property must be vacated for at least 72 hours and up to 5 days.	YES	NO	\$200 min.
3. Leave your keys to every door in the home with a stranger during the entire fumigation period. They have complete access to your home, while you don't.	ALWAYS	NO	
4. All food stuffs, fresh fruits, vegetables, drugs and medications, and all tobacco product must be removed or placed in special bags so the deadly gas doesn't poison your food. That includes everything in your refrigerators & freezers.	ALWAYS	NO	
5. Find & pay for boarding for your pets during the entire fumigation, which could cost as much as \$50 per day. Minimum 3 days	VERY LIKELY	NO	\$150 min.
6. Find & pay for lodging during the entire fumigation, which could cost hundreds of dollars each day. Minimum 2 days.	VERY LIKELY	NO	\$200 min.
7. Remove all mattresses for infants and sick rooms	YES	NO	
8. Windows must be left open during treatment, leaving your home an easy target for burglars.	YES	NO	
9. Hire a guard during the treatment period.	VERY LIKELY	NO	\$450 min.
10. Lower all awnings or damage them if they don't fold.	YES	NO	
11. All screens, including pool & patio screens must be pulled back a minimum of 18 inches. Have to pay someone to take them back and then put them back together after the tenting. In most cases, screens rip and will need to be replaced.	YES	NO	\$500 min.
12. Fences attached to building must be removed	YES	NO	\$100 min
13. Lighting fixtures that project from the building must be removed. All other lighting fixtures must have the bulbs removed.	ALWAYS	NO	
14. Have to have gas company come out and turn gas off and turn it back on after tent is removed.....which could leave you an entire day or weekend without gas.	ALWAYS	NO	\$200
15. Unplug all heating elements, pianos, computers, televisions, computers, etc.	ALWAYS	NO	
16. Plants closer than 18 inches of the eave overhang or vines attached to the building must be removed	ALWAYS	NO	
17. Shrubby & Trees may get damaged or burned during treatment	ALWAYS	NO	
18. Rock, gravel, mulch, bark chips and accumulation of leaves must be raked back to get a good seal so gas kills the termites.	ALWAYS	NO	\$100 min
19. Some deck boards must be removed to get a seal for the tent.	ALWAYS	NO	\$250 min
20. Treated homes have an invasion of ants right after fumigation	VERY LIKELY	NO	\$125 min
21. Damage to metal roofs, shingle roofs, barrel tile roofs, screening, antennae, chimney, ducts, ridge vents, gutters, solar panels, satellite dishes etc.	VERY LIKELY	NO	Can be Very expensive
